*AirBeam® , Base-X® , Berg™ and DRASH® Shelters*

# HDT FAMILY OF SHELTERS

*AirBeam® , Base-X® , Berg™ and DRASH® Shelters*

HDT is the leading manufacturer of rapidly deployed, expeditionary shelter systems. Our comprehensive product line means HDT has a shelter solution for nearly every application. The patented AirBeam, Base-X, Berg and DRASH product lines are engineered to excel in the harshest environments, making them ideal for military, homeland response, disaster relief, peacekeeping or industrial mobile infrastructure operations. All of our shelter solutions are backed by HDT's support and training experts.

## AIRBEAM SHELTERS

HDT AirBeam Shelters are the industry-leading high-pressure air-supported shelter systems. HDT's highly-engineered fabric technology uses a fiber-reinforced elastomeric composite that retains high gas pressure and maintains structural integrity in extreme environments. Designed to deploy and strike quickly with minimal personnel, the AirBeam Shelter by HDT is rapidly becoming the shelter of choice for today's military, aerospace and commercial operators.

## BASE-X SHELTERS

HDT Base-X Shelters are the most advanced lightweight, rapidly deployed tactical frame shelters. The unique, patented folding frame design gives the system its superior strength and rapid setup and strike capabilities. The minimum weight and pack size makes Base-X shelters mobile and easy to set up or strike. Our most versatile shelter offering, the Base-X family of shelters includes Base Xpress shelters and Base-X Removeable Cover shelters, and some Base-X Shelters are available with without plenums or electrical wire casings.

## BERG SHELTERS

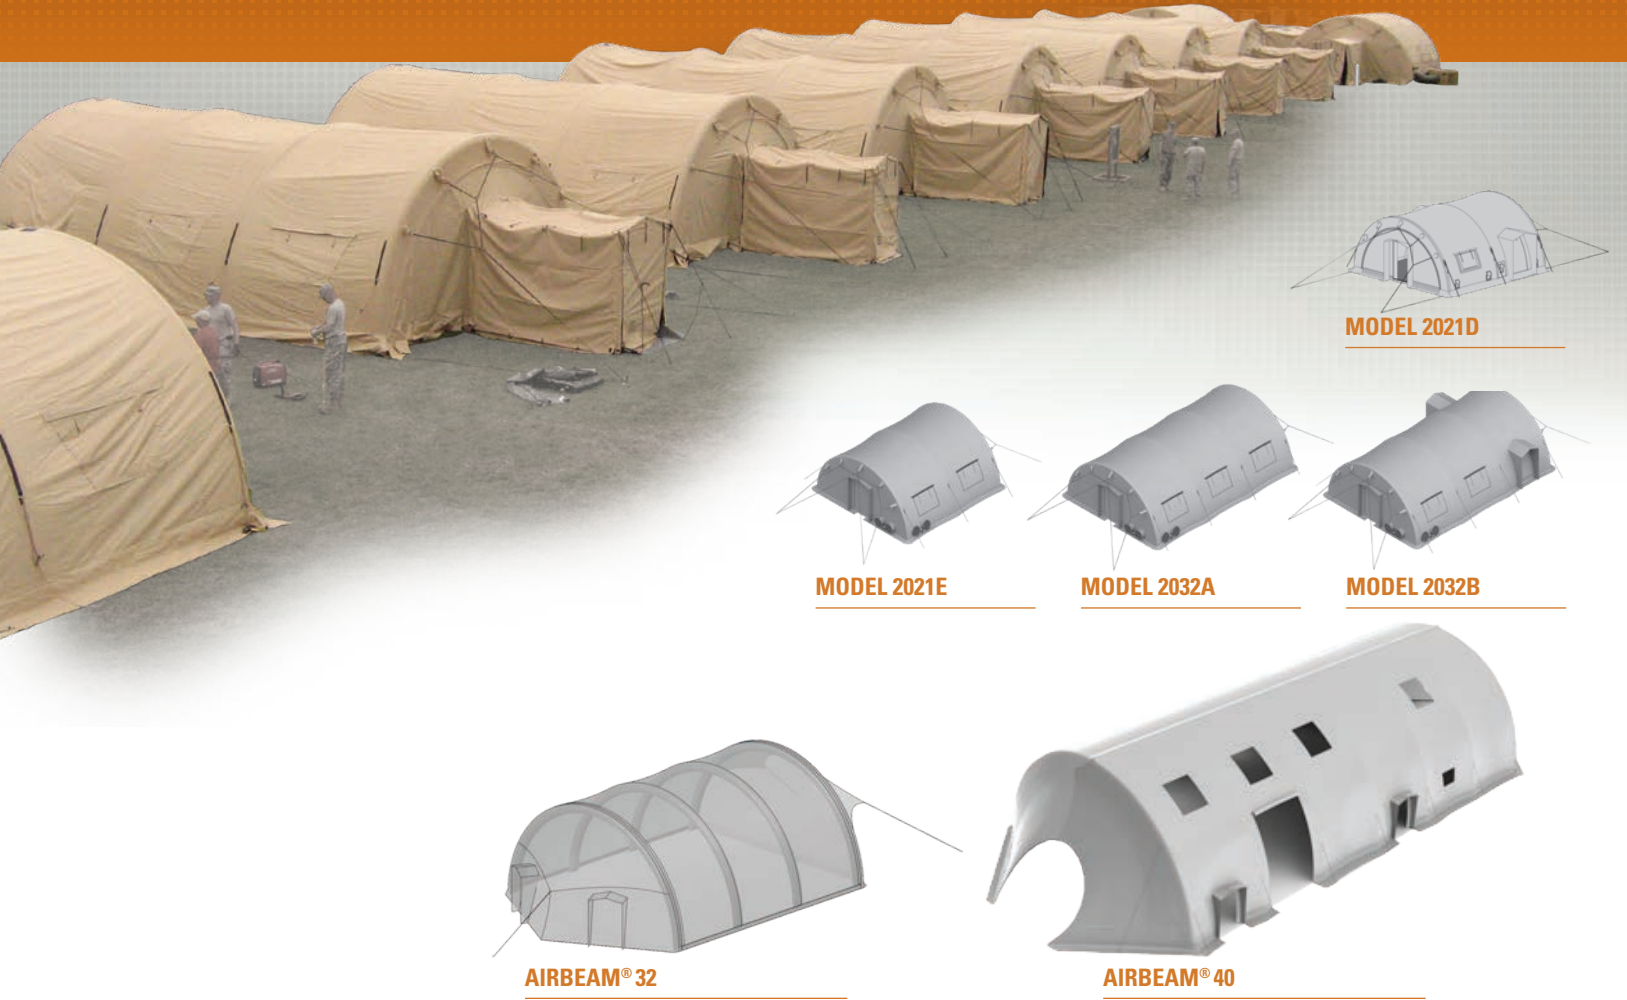

Considered the standard in the rigid wall shelter category, Berg™ shelters are modular, flexible and fully-customizable. Available as an expandable system or non-expandable shelter, Berg rigid wall shelters can be transported by air, land or sea, are ISO 1496-1 compliant and can be stacked up to nine high. Expandable systems can be configured as kitchens, medical facilities, showers, billets or command centers and can be deployed rapidly with just a few personnel. Berg non-expandable shelters are ideal for customers who require a solution that is rapidly-deployable, self-contained and ready to use.

## DRASH SHELTERS

The DRASH shelter is a quick setup / strike soft wall, rapidly deployed shelter that incorporates high-quality fabric and a composite frame with a flex strength that is 270% greater than aluminum. The patented DRASH shelter design requires no site preparation or extensive training. Shelters can be set up in minutes with minimal manpower and without the use of special tools. DRASH shelters have been tested at the Aberdeen Test Center (ATC) in Maryland and meet all Mil-Standard requirements for soft wall shelters.

Base-X Shelters: \* Includes outer cover, frame, carry bag ; \*\* Includes carry bag, liner with pre-installed floor, electrical wiring, HVAC plenum, repair kit, and stake kit

# BASE-X<sup>®</sup> REMOVABLE COVER SHELTERS

The HDT Base-X Removable Cover Series Shelters offer the same features and distinct benefits of the standard Base-X shelter family while making the deployment process even more intuitive. The shelter frame and cover are packed separately, reducing weight and allowing for easier setup and take-down.

# BASE-XPRESS SHELTERS

Deployed in as little as 90 seconds, the HDT Base-Xpress Shelters are extremely lightweight and rated for extreme environments. The outer canopy features a built-in sleeve that accommodates water bladders and sandbags. Soil anchors and wind lines are included. An optional liner offers inherent insulation value, clean workspace and hang points for equipment and accessories. Multiple shelters can be complexed together through door openings.

## ES2S SHELTER INTEGRATION OPTIONS

### 2-BEDROOM UNIT

- Open plan
- (8) 32" bunk beds
- 2 tables
- 2 benches
- 2 ton ECU
- Smoke / CO<sup>2</sup> detector
- Wall mount exhaust fans

### 8-MAN BILLETING

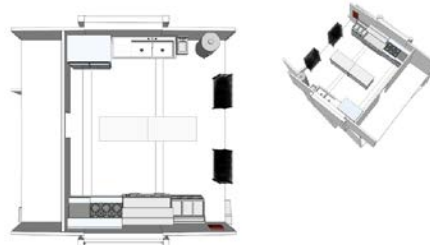

- 4 rooms with hallway
- (4) 32" bunk beds
- 4 tables
- 8 chairs
- 2 ton ECU
- Smoke / CO<sup>2</sup> detector
- Wall mount exhaust fans

### 16-MAN BILLETING

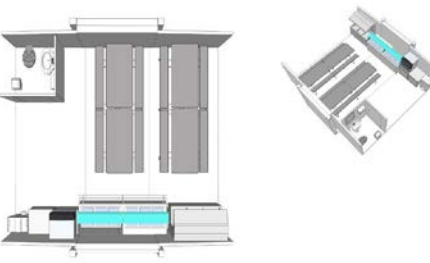

- Open plan
- (8) 32" bunk beds
- 2 tables
- 2 benches
- 2 ton ECU
- Smoke / CO<sup>2</sup> detector
- Wall mount exhaust fans

### KITCHEN FACILITY

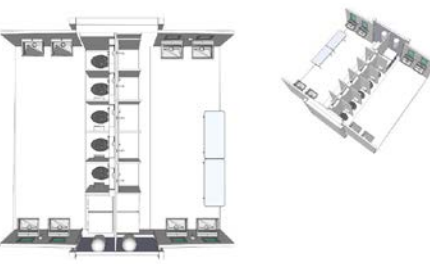

- 2 ovens
- 2 fryers
- Flat top grill
- Refrigerator and freezer
- 3 sinks
- Prep tables
- Storage

### DINING HALL

- Seats 40
- Warming trays
- Microwave
- Drink station
- Half bathroom
- Smoke / CO<sup>2</sup> detector
- Wall mount exhaust fans

### HYGIENE CENTER

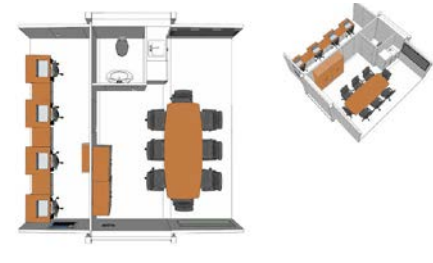

- 4 washer / dryer units
- 5 toilets
- 5 shower stalls
- 2 urinals
- 4 sinks
- Smoke / CO<sup>2</sup> detector
- Wall mount exhaust fans

### ADMINISTRATION CENTER

- 2 offices
- 3 work stations
- Half bathroom
- Refrigerator and sink
- 6 sinks
- Smoke / CO<sup>2</sup> detector
- Wall mount exhaust fans

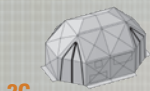

### OPERATIONS CENTER

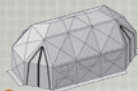

- Conference room
- 4 work stations
- Half bathroom
- Refrigerator and sink
- Plasma TV
- Smoke / CO<sup>2</sup> detector
- Wall mount exhaust fans
